EXPERIENCE

Shiv Nadar University, Noida Campus Assistant Professor

Philips Research, Bengaluru

Research Engineer II, Artificial Intelligence & Data Science

Was involved in the non-image and image based synthetic data generation and verification processes. Generated and analyze the synthetic data for various types of signal and image modalities such as ultrasound images, ecg and audio signals which further improved the performance of various models. This resulted in technology-transfer and subsequent writing of tech and exploratory notes.

Also performed statistical analysis in the detection of outliers over patients data and subsequently proposed novel methodologies in temperature distribution of human body and suggested improvements.
